Renew

All products with the "Renew" icon utilize rapidly renewable resources. Renewable materials reduce our negative impact on the environment because their growth and harvest times are minimal.

Refresh

The "Refresh" icon assures products have been made with materials contributing to healthy indoor air quality. Low VOC adhesives, GreenGuard Certified materials, or materials with no added urea-formaldehyde are typically used in "Refresh" products.

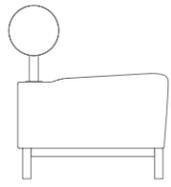

Recycle

Products manufactured with recycled content bear the "Recycle" icon. Manufacturing with recycled content reduces the use of raw materials and increases the demand and value of recycled goods.

Bucket

If the Bucket chair was a cookie, it would definitely be chocolate chip. Just try to pass by this little slice of deliciousness without stopping to admire the sleek, modern design and plush contours. The Bucket chair has everything but that fresh-from-the oven aroma

that reminds you of mom and the holidays and that golden retriever Skippy you had when you were a kid. Go ahead. Sink into the Bucket chair's cushiony goodness, and we guarantee you'll crave a glass of milk.

Mod²

Do you remember that girl in high school, the one all the boys wanted to date and all the girls wanted to be? That's our Mod² chair. In a sea of blah, this beauty has a little something extra. The French call it "je ne sais quoi" – that inexplicable sparkling something that separates

plain janes from beauty queens. Simple, yet incredibly sexy, our Mod² chair is the Homecoming Queen of lounge seating. And although she may be easy on the eyes, we wouldn't recommend asking her out. She only dates college guys.

Café

It was 1924. A small café on a noisy street near the river Seine. Somewhere, a mustachioed man with a violin was playing "La Vie en Rose" – life through rose colored glasses. Every time we look

at the Café chair – its sophisticated wood back, debonair steel cross bars, and luxe upholstered seat – we are reminded of when we first fell in love with gay Paris.

Huron Line

Great Lakes inspire great outdoor furniture. This line is inspired by Lake Huron's majestic natural beauty – sun dappled forests, rocky beaches, and waters as vast and breathtaking as any of the great oceans. The tables, benches, planters, and waste receptacles of the Huron Line feature the beauty of

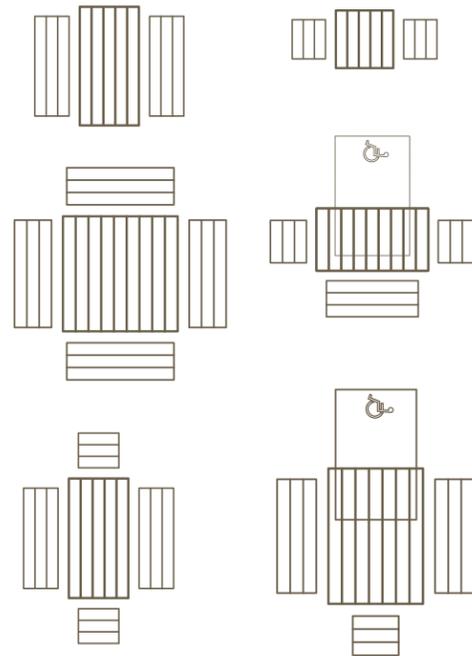

natural wood without the maintenance issues typically associated with wood products. Synthetic wood planks offer color stability and will not warp or fade over time.
